EDUCATION

Indian Institute of Information Technology, Lucknow

Lucknow, India

Bachelor of Technology in Computer Science and Artificial Intelligence (GPA: 8.43/10)

Aug 2024 – Jun 2028

SKILLS SUMMARY

- **Languages:** C++, C, Java, JavaScript, Kotlin, SQL, Bash
- **Tools:** GIT, MySQL
- **Academic Coursework:** Data Structures, Design and Analysis of Algorithms, Database Management Systems (DBMS), Object-Oriented Programming (OOP), Computer Networks, Operating System
- **Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Time Management

PROJECTS

- **Smartify+ | Project Repository**  :
 - Tech: Kotlin, CameraX, Room Database, Material UI
 - Developed a women's safety app with SOS activation, live location sharing, and background emergency service triggering.
 - Designed a stealth calendar interface that disguises safety features and reveals the emergency dashboard only on specific user interactions.
 - Implemented automatic photo evidence capture using CameraX and saved media securely via MediaStore.
 - Built a background safe word audio detection system to trigger SOS alerts and emergency calls hands-free.
 - Integrated fake call simulation, shake detection, and low-battery triggers for real-world emergency scenarios.
- **AttPresent | Project Repository**  :
 - Tech: Kotlin, Firebase, Android
 - Developed an Android application for IIIT Lucknow students to track daily attendance in real-time.
 - Built an attendance system that computes safe leave limits and alerts students before crossing the 75% attendance cutoff.
 - Implemented Firestore for secure user data storage.
- **AgroTech | Project Repository**  :
 - Tech: React.js, HTML, CSS, JavaScript, Spring Boot, MySQL
 - Built a full-stack team-based web application enabling farmers to sell crops directly to middlemen by setting their own prices, reducing intermediary dependency.
 - Developed a React-based responsive frontend with dynamic crop listings and user dashboards for farmers and buyers.
 - Integrated MySQL database for secure storage of users, crop details, pricing, and transaction data.
 - Added profile management with image upload and ensured seamless frontend-backend integration using RESTful services.

ACHIEVEMENTS

- **Codeforces:** Max rating 1461 (**Specialist**) | View Profile 
- **Codechef:** Max rating 1614 (**3-star**) | View Profile 
- Achieved rank **1346** in Codeforces Round 1089
- Achieved ranks like **39** in Codechef Starters 235 and **168** in Codechef Starters 237
- Solved **700+** problems over various CP platforms
- **Finalist** of the Hackofiesta - 2.0
- Secured **99.36** percentile in JEE Main 2024

SOCIAL & LEADERSHIP

- Active member of cultural clubs like E-Cell, contributing to planning and execution of events.
- Served as Team Lead for both technical and non-technical teams, coordinating members and managing logistics.
